

Math1115.

Verse 1:

Math1115, I only did you
Cause lots of pretty girls told me to
I wanted to impress them, then undress them, as they talked about proof by induction

Verse 2.

1115, I thought you'd teach me
Real analysis, and I thought you'd be easy
But you were so frigid, and so rigid, with your assignment marking criteria

Chorus:

But you let me down
You gave me shitty grades, I needed all HDs
It's cause of you I can't transfer into the PhB
I know how to find a basis, yeah I know what a vector space is
But you didn't care, so I'm leaving you, yeah I'm doing Math1014.
